**Extract from Staff Report  
of Maj. Macleod:**

The S.S. services at present is excellent and is highly appreciated by the operator as regards standard of lab work, supplies, etc. As a moral booster, it is the best service the detachment could wish for. The detachment is composed of prompt mail delivery; all personnel compliments are on the efficient and courteous service.

Thank you Major Macleod, your post is mighty encouraging. As it be that our C.O. and all at the Company down last Sunday - even Lt. Col. Ferguson and Major Williams of another Company, set as a friendly gesture, after days now now here - swept them off their feet at homesickness, of these, we say.

Mr. Young is now with Capt. Cook at the First Doss - etc. Mr. Young at H. A. does his stuff in the Lab. etc. Kyle is with Capt. Holman's clinic. etc. Mr. Jones returned to H. A. to see if he can pick up the technique of lab work. Mr. Jones can retire any day now and he may be able to see what blonde is in Africa. Mr. Jones is now with Capt. Liver where he keeps the clinic shining like a mirror. He also here says the hairless one - so is right and is gradually returning to normal, or should we say abnormal.

**THE LION HOLLYWOOD**

The LION came down on Wednesday to take pictures of the dental services of this Company. Several shots were taken of our C.O.'s at the chair - The Lab - the H.P. Section - Don E. and Merly Ryan in action. Two of the principals, Capt. Jarrett and Johnston seemed rather temperamental but the scenes depict of their real histrionic ability. Jack Cable in the role of Mrs. Karen and W.A. Alder performed their role exceedingly well, though not having much to say, (though on the) they saw plenty of action, it was a more or less hectic day and would be director Armstrong doubt will produce a picture worth seeing.

Capt. Dyer is building a model streamlined mobile dental clinic of his own. Now in the embryonic stage it looks as if it will result in an operators dream come true.

Capt. Jarrett has built a smart developing room for X-ray in his clinic.

Major Macleod was seen entertaining around at the 43rd Mass Mess. wonder if he were trying to keep up with the Infantry or was it one of those things that happen while trying one on.

Majors Under and Murray, Capt. Dyer and Generoy also were noticed stepping on it at the Red Garden Party.

-----  
**LANCE L. S. MURPHY** says,  
"Never Again".

-----  
Our latest J.C. recruits are Dr. ~~Walt~~ and ~~Kerness~~ watch that service pay up now.

-----  
Capt. Jerry Carpenter, dean of The Grizzly Room, has recently gone through the very severe ordeal of a re-christening, his name is now - "Circular Letter Fox".

-----  
Major Murray, Capt. Greasy and Wiley visited H. A. recently and practically tore the Grizzly Room apart. All officers are welcome to try their hands similarly and of course we are always pleased to see them.

-----  
Cancellation of leaves has really sent up a howl and all hope that the Gods in whom we trust will show their justice and mercy in the future.

-----  
We learn through Johnny Doneri that our old friend Tiny Fallerton has arrived in Canada and is complaining about the high cost of living there.
