CAPT. IRWIN AND DETACHMENT

Better late than never, but with a superb effort we managed to gather a contribution from our detachment and to drag our Flash away from his horseshoes long enough to get this down in print. We notice quite a change around here now with Frank Willis, the Carrington Kid gone after being with us since Jan. 43, and Flash here to take his place. We gave him the usual welcome, by going out and finding him a couple of bottles of VINO. Under Sgt. Walls expert instruction Flash has improved his Wop lingo to such an extent that he now knows the Eytic word for inches, and does he brag. We recommend Flash to anyone in the company who wishes a sign painted. At the suggestion of Col. Armstrong, who appeared lost EVEN with sheet 109, Flash went out and made an excellent job, or so he thinks, of decorating Eytic houses with dental signs. At the moment of writing, however, the direction of dental services is quite vague, due to the lack of barb and feathers on the arrows.

Of the many different types of Air Raid shelters we boast one of the better ones, size and plan submitted on request. Capt. Irwin thought it was superb, but in the middle of the night we heard a shuffling noise in the clinic. Apparently it was hotter inside than out.

Well anyway, any time anyone cares to come to a nice clean clinic, with all modern conveniences, private bed with draw curtains, compliments of the Col, hot and cold running water and male chambermaid, just call around. For a nominal fee we will rent same by the weekend or night, with no register to sign or questions asked, complete with RED LIGHT!

Flash is happy in his new surroundings as he has lots of competition every night throwing horseshoes, and none of the old B.S. that floats around H.Q.

Thats all for this time, so,
Cheerio fellows,
FLASH PARR AND GANG.

H.Q. ----- BY THE SEA

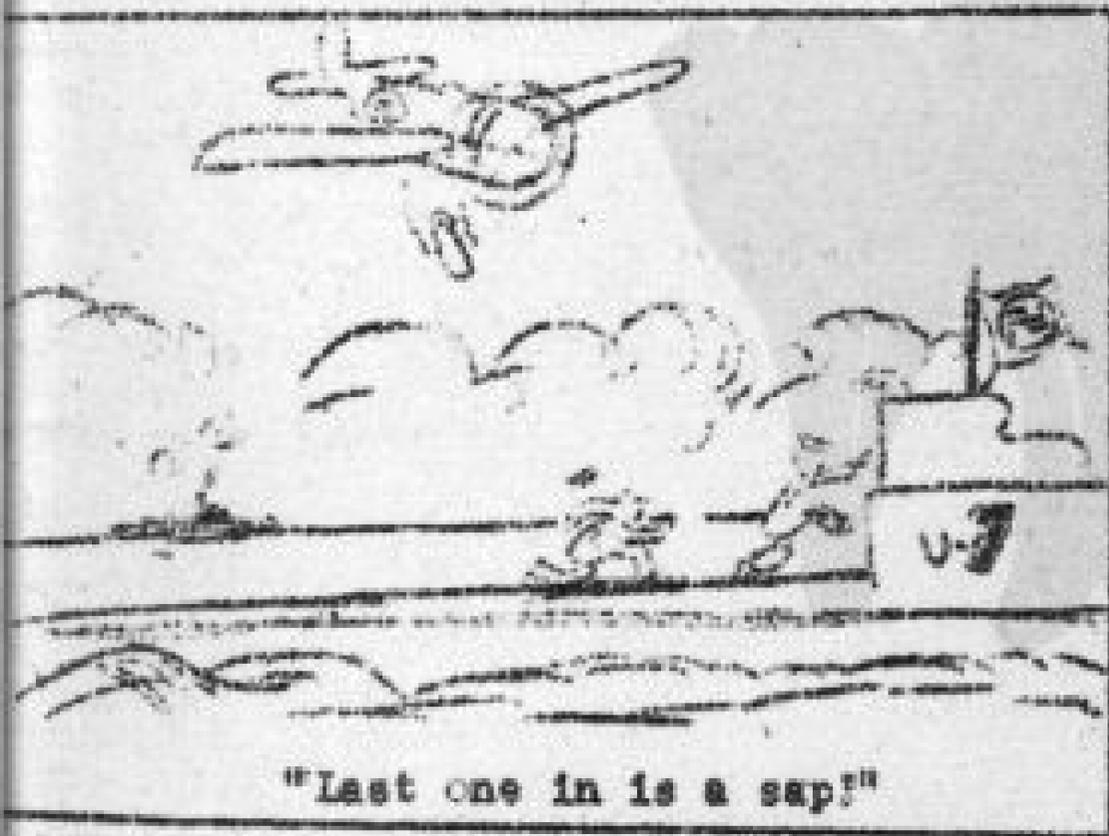

With the waves of the Adriatic pounding against the shores of Catolica and the beautiful seabreeze blowing against us, CDC HQ is in one of the best billets in many a year. An Officers Mess under Capt. Trayner has been formed with one of the richest casses in Catolica as a mess, piano, radio, chesterfields, and arm chairs. Even a cook of their own. Not bad! Yes, all HQ wishes you success. Not to be outdone the men scrounged around for chairs and tables for a mess of their own, and started sticking out their tongues at all officers and saying "You can't do this to us!" The men even have a cottage where they can go to read, write, and play cards in quietness, and even a radio. Not in such a long time have the boys slept in such comfort, springs for everyone have been obtained. All D.O.'s are invited to visit H.Q., CDC Summer Seaside Resort. Prices reasonable on request. Overnight cabins can be obtained.

Capt. Joe Johnston is now at 4 Cdn. Fld Amb. and is now doing his stuff with business as usual to the front line troops.
Capt. Bob Harvey is the latest officer to come up and has replaced Capt. Johnston with CREME 89 along with Sgt. Warder and Pte Martin. He is welcomed to the Coy and up-and-at-'em.
Tough luck comes in the nature of losing Pte. Abraham, an excellent carpenter after a 48 hour residence. The Coy is sure sorry to lose you Abe.
M.T. has accepted the challenge of the O.C. who recently told them the maintenance was a hell of a mess and have demanded a thorough inspection by CREME, as they feel their MT is none but the best. Great anticipation is being held at present as the final decree of the Great God CREME himself becomes known.

DO's latest observation is with remarks as to the signs. It seems now you can find all clinics but where in blazes is Coy H.Q. or is it security? Rumour has it that an airborne Dental Blitz on Rimini might possibly be the answer.

"Grown, hasn't he dear?"

"Last one in is a sap!"

"Matilda"

"Still think you had the wrong address?"

That's all
Folks!
