**BY PERMISSION OF THE
OFFICER COMMANDING**

AN APPRECIATION

Would like to extend my heart-
felt appreciation of congratulations
received from No. 1 Coy., C.D.C.
on my recent promotion. I would
be very grateful if you would pass
my sincere thanks to those re-
sponsible for the magnificent cul-
inary effort. Believe you me, it
was *alto buono*, and the rapidity
with which it disappeared was, in
itself, a fitting tribute to the
chef.

A.W. IRVIN, Major

DETACHMENT CHANGES

Capt. W.R. Cooper and detachment
have moved from 1st Field Coy.,
C.S. and may now be found op-
erating with the 4th Field Coy.,
C.S.

Congratulations are extended from
all ranks to Cpl. C.L. Switzer
on his recent promotion. It would
be a pleasure if a celebration would be
held in your honor, eh Switz?

WHY DON'T THEY invent a machine
which will automatically emit the
word "Go" every time a political
candidate promises, "If I am elected I
will promise -----".

The usual No. 1 Coy welcome is
extended to our new addition to
the kitchen staff -- Pte Geddis.
May your stay ~~xxx~~ be fruitful for all.

h V-Loan -----REPORT

At present the total of \$3,100.00
has been reached by No. 1 Coy.
This is a good showing but our
objective is \$5,000.00. Appli-
cations may still be submitted
----- let's get cracking and go
for the top!

Reports from our Front Line Charley's
Capts Allan and Oliver say that they
are planning bigger and better slit-
trenches sufficiently large enough to
accommodate their clinics. It seems
some shrapnel splinters punctured their
clinics.

Digi Digi ---- Well all right!

NOW THEY'VE DONE IT. Fashioned
for men, post war suits with adjust-
able bands so trousers expand during
sitting, take up their own slack
when standing.

H.Q. MOVE ----By FITZIE

H.Q. were once more on the move this
past week and are now to be found in
Casole, a small village like every
other Eytie village we've seen so far
in our travels. We left our much
prized billets in Cattolica with
rumours that our domicile would be
in tents. It wasn't such a good
prospect for us.

The road at the start was clear and we
made a good beginning but after a few
miles of clear sailing we were forced
to follow an endless line of traffic
which extended into several hours
instead of one.

Our Recce Party which consisted of
our "Go Getter" Capt. Les Trayner,
"If it's possible to get, we have it"
CSM Rae Jones and his right hand man
Pte Johnny "Life Guard" Redmond were on
hand to give us the good news that
billets were found for all.

We are now comfortably settled in our
new billets and everything has gone
according to Hoyle. We hear the old
whistling sound going overhead at
night and Pte. Fuller is convinced
that there are no birds that fly with
a whistling sound so they must be
either Doodle-Bugs or shells, but we
will let you know for certain in the
next issue.

All I can say is that while down in
K-Area I never heard those annoying
piercing birds.

NEW DEALS: Reforms come from below. Do
man with 4 Aces howls for a new deal.

H.Q. was honored this week by visit of Lt. Col Climo, ADOS. A big welcome was extended by Col Armstrong. After making the tour of Coy H.Q. a tour of all elements was made. We trust he had everything to his satisfaction that he will return again in near future. We understand our D.S. has a passion of picking antiques, or are they antiques? what did he do to our O.C.?

Reports have filtered in to this that Capt. Jarrett has a brand dental engine. Now he can use foot for holding his patient.

CE: Reward is offered by Major Macleod for the recapture of his missing wash-basin. Anyone seeing wash-basin please report same to the mentioned officer.

week Lt. Col Curly Carroll, O.C. Coy. 3 Coy., C.D.C. paid Coy H.Q. a friendly welcome visit. "How's about you more often?"

General G.M. Capt. Les Trayner was laid up for a couple of weeks, quite unwell, but is now on the job again currently wearing rubber boots to all and sundry.

Capt. Generoy, not to be outdone by Major Macleod has procured himself a new dental chair complete with hydraulic lift and free wheeling. He invites comparison.

Thanks to the efforts of our O.C. H.Q. now boasts one of the finest sets of electrical generators. Sufficient power is generated to look after all requirements and H.Q. is well lit up, we mean by electricity.

Reports have it that Capt. Proulx is laid up with an infected finger in No. 3 Cdn. Gen. Hosp. It is hoped that in the future care will be taken to keep the finger protected. Nurses will be avoided, at least until complete recovery.

Capt. Harvey is flat on his back at the moment. The Coy wishes you all the best and get well soon. Some of the older "Boys" are hinting that the young fellows can't take it.

In protecting women, courts and juries should be careful to protect men too, for men are not only useful to society generally but to women especially.

--Extract from court proceedings.

A few days ago one of our officers sent a D.R. out to deliver a very important letter. Upon arriving at this destination (3rd Cdn Gen Hosp) the D.R. was confronted by a N/S with a well soaped head of hair and very busy endeavoring to remove soap from her eyes. At the moment the D.R. is in bed with a high temperature but is expected to recover.

He made me make up for the half hour he spent waiting for me earlier tonight!"

"Whats the matter ... an I your first mission?"
